WORKSTATION

The ideal workstation is one that lets you focus more on your patient and less on your equipment. The GlideScope® Core™ system adapts to your space and offers the flexibility you need.

THE TOOLS YOU NEED – RIGHT WHERE YOU NEED THEM

- Mounted on an adjustable arm, the GlideScope Core monitor can be positioned over your patient for optimal viewing in your direct line of sight
- Cable organizer keeps cables ready by the monitor, so you can easily connect the video laryngoscope and/or bronchoscope and start your procedure quickly
- Convenient prep tray ensures easy access to all your airway tools
- Hook attachment stores BFlex™ single-use flexible bronchoscopes
- Sterile bin organizes your GlideScope video laryngoscopes, excess cables and airway management tools in one place to cover a wide range of patients
- Dirty bin is designed to support infection control initiatives and house used equipment for easy disposal

TOOLS

GlideScope Core is the first airway visualization system with live multimodal image capability for video laryngoscopy and bronchoscopy. Your airway visualization system now does more by supporting bronchoscopy-assisted procedures in the Operating Room, Intensive Care Unit and Emergency Department.

ADJUSTABLE ARM POSITIONS
EASILY OVER PATIENT

DUAL CONNECTION PORTS WITH
QUICKCONNECT™ TECHNOLOGY

WHEN IT COMES TO YOUR AIRWAY AND TRACHEOBRONCHIAL
VISUALIZATION NEEDS, THE MORE TOOLS YOU HAVE AT HAND
THE BETTER.
